Location: Ramrama-Taherpur, Rajshahi Bangladesh.

Career Objective

I have a strong enthusiasm for Computer Science and Web Development. I have acquired a range of competencies, including UI/UX design, HTML, CSS, JavaScript, and PHP. As a recent graduate, I am in the process of adjusting to emerging technologies. My immediate objective is to join the IT industry and build my career to become a proficient software engineer or system analyst. In addition to my professional interests, I am deeply passionate about traveling and discovering new destinations.

Education

- **Bangladesh Army University of Engineering & Technology**   Natore, Rajshahi
    B.Sc. in Computer Science and Engineering (CSE); GPA: -.--   ----/----
- **Taherpur Degree College**   Rajshahi
    Higher Secondary Certificate (HSC)- Science; GPA: 5.00   2020
- **Taherpur River View Girls Highschool**   Rajshahi
    Secondary School Certificate (SSC) - Science; GPA: 4.91   2018
    Junior School Certificate (JSC); GPA: 5.00   2014

Skill

- **UI/UX Design**: Adobe XD, Figma

- **Front-end web development**: HTML, CSS, Bootstraps, JavaScript

- **Back-end web development**: PHP, Laravel

- **Programming language**: C, C++, Python (Intermedia Knowledge)

- **Applications**: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

Experience

Deppol Tech Agency   Rajshahi,BD
  Data Entry   2022 – 2023
  - Handled various data entry tasks, including copy-pasting, entering product details, converting photos to text, and organizing data lists. Maintained accuracy and efficiency in all assignments, contributing to smooth data management processes.

Projects

- **Bonolota DreamDorm App:** The Bonolota DreamDorm app is a comprehensive management solution for Bonolota Hall, enabling staff to manage notices, registrations, and updates, while providing students with seamless access to hall services.

- **Resume Analyzer**: The Resume Analyzer web application will analyze CVs and provide actionable insights to users, helping them improve their resumes effectively, using Python and Flask for development.
- **Job Portal Web**: The job portal web application, developed using PHP and Laravel, streamlines job search and recruitment processes, connecting employers with qualified candidates effectively.

Extra-curricular Activities

- **BAUET-Mind Storm**: I participated in BAUET Mind Storm, a project showcase event, where my team and I developed an innovative app using Java. Our hard work and creativity paid off, and our project was recognized for its excellence, earning us the Runner-Up position.

- **Lab AR-Internship**: I completed a 25-day internship at Lab AR, located in the ICT Tower, Bangladesh. During this time, I worked on multiple website development projects, gaining valuable hands-on experience in web development and project execution.
